ILLEGIB

1. In response to your comments on subject memorandum, we have reviewed the matter with the Office of Communications and Africa Division. We concur in the recommendation contained in paragraph 4 of subject memorandum. However, we suggest that DD/S approval be granted with the proviso that responsibility be lodged with the Director of Communications to review the situation each 90 days to insure that this special authority continues to be needed and is discontinued promptly when not needed.

2. This situation arises because of the activities of the SIGINT Close Support program. However, the problem is not limited to these personnel and could be of concern to Africa Division as long as the existing conditions continue. As far as the SIGINT personnel are concerned, it appears that the need for TDY personnel will continue until approximately September 1962. By this time it is planned to have PCS personnel in place. This is contingent on the availability of viable cover. The personnel who have been assigned on a TDY basis are using Government quarters when available and, to

(DECL)

date, most personnel have obtained Government quarters. The availability of Government furnished housing does not affect the situation materially since the standard 40% deduction from per diem is made when Government furnished housing is used.
